

AASHISH MISHRA

Product Manager | InsurTech & P&C | Automation-Fluent PM

@aashu.kar@gmail.com | +91 9552533797 | Pune, India | mishra-aashish-product-enthusiast

13+ years of delivery credibility → now building. Two zero-to-one product concepts with PRDs, API specs & high-fidelity mockups in Insurance domain. Product thinking that travels.

PRODUCT PORTFOLIO

SafeFirst

AI-Powered Workers' Compensation Platform

- Problem:** Indian corporates lack proactive WC risk tools; claims are reactive and costly.
- Solution:** AI-driven claim filing in <5 min, Amazon-style 6-stage tracking, fraud detection, and settlement in <7 days — “ProActive” means resolving claims before the worker chases HR, not just wearables in Year 3.
- Target:** Mid-large Indian corporates, HR teams, and insurance carriers.
- Full PRD • Screen Workflows • High-Fidelity Mockups

DaySure

Pay-Per-Day Microinsurance Platform — Insurance That Works When You Do

- Problem:** Gig workers & freelancers are uninsured — annual plans don't fit their income patterns.
- Solution:** Activate daily micro-coverage via mobile app. Pay only for days worked. Cancel anytime.
- Target:** India's 500M+ gig & informal workforce; InsurTech carriers.
- Full PRD • Screen Workflows • High-Fidelity Mockups

PROFESSIONAL EXPERIENCE

Project Manager

Expleo Solutions Ltd.

Jan 2024 – Present | Pune, India

- Proposed and scaled a Centre of Excellence (CoE) for QA & BA functions in the P&C Insurance vertical — a product-level initiative defining operating model, tooling strategy, and talent roadmap.
- Driving Allianz Germany's QA/BA transformation: defined product requirements, established KPIs, and governed Playwright & TOSCA automation as product capabilities.
- Managing a team of automation (Playwright and TOSCA) and functional QAs, overseeing project delivery and quality assurance processes.
- Collaborating with cross-functional teams and clients to ensure project success.

QA / Test Manager (Scrum Master)

LTIMindtree Ltd.

Dec 2014 – Dec 2023 | Pune, India

- Owned end-to-end product quality for Duck Creek On-Demand cloud platform across 5+ Commercial P&C lines (WC, CA, GL) — defining acceptance criteria, prioritizing defect backlog, and driving sprint delivery also as a Scrum Master.
- Authored complete product documentation suite: Test Strategy, Test Plans, Traceability Matrices — mirroring PRD and acceptance criteria discipline core to PM practice.
- Built Selenium + TAC automation framework (100+ test cases) as a reusable product capability — translating business requirements into scalable automated solutions.
- Led Agile ceremonies (sprint planning, backlog grooming, retrospectives) for geographically distributed teams across India and the US — bridging business, dev, and QA stakeholders.

Senior QA Engineer | CSC (now DXC Technology) | Aug 2013 – Feb 2014
QA Engineer | Larsen & Toubro Infotech Ltd. | Dec 2009 – Aug 2012
